NEW DELHI: State-run Bharat Sanchar Nigam Limited (BSNL) Tuesday has tasked an electronic payments company TechProcess to enable next generation digital payments for its subscribers.

The telcos' customers will now be able to make bill payments and recharges anytime, anywhere using the BSNL website owing to the new payment gateway interoperable with more than 185 payment modes, the two companies said in a joint statement.

Nearly 100 million BSNL subscribers can now use credit and debit cards, Net-banking, standing instructions on cards and account, electronic bill presentment and BillJunction to make transactions.

With NextGen payments platform developed by TechProcess, BSNL consumers can experience user-friendly payment interface, and shall be able to generate digital receipts.

"We are delighted to present BSNL with our payment platform that is innovative, inclusive, safe, secure and convenient. We are confident that it will enhance the end-user digital payments experience for its customers," Kumar Karpe, chief executive, TechProcess said.
